

COME BACK HOME

10 WEEK SUMMER RESEARCH INTERNSHIP

May 24, 2024 - August 3, 2024

Diné College, Tsaile Campus

BENEFITS

Participants will receive:

- \$6,000 stipend
- Summer Meal Plan and Housing
- Opportunity to conduct research based on the students' individual interests
- Lab skills training
- Professional Development
- Mentoring
- 4 credits for a 400-level Biology/Agriculture class

MORE INFORMATION

- This summer research experience caters to students from the Navajo Nation who would like to return home for the summer.
- Participants will conduct forestry and laboratory research while earning course credit and will learn molecular and field techniques through the study of fungal endophytes. There will be extensive field work with long days of outdoor activities.
- Students will live in Diné College dorms on site at the Tsaile Campus.
- Preferred majors: any biology-related majors, environmental engineering, and any agricultural sciences majors
- Other majors welcome to apply
